2017 SERVICE SEMINAR INFORMATION Patient Monitoring Systems

PURPOSE

Nihon Kohden America, Inc. Service Seminars are intended to provide attendees with a working knowledge of Nihon Kohden Patient Monitoring Systems for the purpose of equipment malfunction identification and correction. These seminars will cover both system and circuit board level analysis and troubleshooting techniques.

The four and a half day seminar will cover the following products BSM- 6000 series, BSM-9101A, CNS-6201A, RNS-9703, ORG-9100/9110, GF-210, EDNS (Prefense), Telemetry, WLAN and Hardwire systems. Operation, block diagram signal flow analysis, self-check explanation, symptom analysis and troubleshooting techniques will be presented. As well as an overview of Server based products
