

LIFE SCOPE[®] SVM-7200 SERIES VITAL SIGNS MONITOR

ALL INCLUSIVE VITAL SIGNS
& EMR CONNECTIVITY SOLUTION

Simple Integration of Essential Vital Signs

The intuitive design of the Life Scope SVM-7200 Series vital signs monitor was developed to save you time and increase efficiency in measuring, documenting and integrating vital signs parameters to the patient's medical records.

The Life Scope SVM-7200 Series vital signs monitor features Nihon Kohden's premium-as-standard design and comes complete with WLAN capabilities, iNIBP™ and a battery at no additional charge. This all-in-one solution includes monitors, accessories and integration with your EMR for a complete Vital Signs solution.

FAST

- 01.** Quickly screen patients using temporal forehead, or oral temperature scan
- 02.** Easily configure modified early warning scoring to fit your hospital's MEWS protocol. MEWS can be designed to help with early detection
- 03.** Measure non-invasive blood pressure quickly using inflation-based technology
- 04.** Offers a streamlined barcode-reading functionality to ensure that the accurate information goes to the right patient chart every time

EASY

- 01.** Most CDC recommended disinfectants can be used to easily clean and disinfect your monitor
- 02.** Features a seamless two-touch, wireless send-to-EMR function, so you can spend less time charting and more time with patients
- 03.** Intuitive user interface with color touch screen
- 04.** Includes on-screen animated tutorials for user assistance

SIMPLE

- 01.** Solution comes complete with monitor, battery, roll stand and bar code scanner and all accessories ready to use right out of the box
- 02.** Solution includes spot check HL7 hardware remote integration project services for connectivity to your EMR
- 03.** Our subscription plans allow you immediate access to equipment without a capital expenditure
- 04.** Monitor and roll stand requires minimal assembly

ONE KIT INCLUDES EVERYTHING YOU NEED FOR A COMPLETE SOLUTION INCLUDING EMR CONNECTIVITY:

01. Starter kit with three Life Scope SVM-7200 Series vital signs monitors
02. Battery for up to 6 hours of use
03. Optional built-in recorder with thermal paper
04. Exergen TemporalScanner™ or Cardinal FILAC™-3000 thermometer solution
05. Roll stand with cable management bracket and basket
06. Bar code scanner for quick patient ID loading
07. Choice of Nihon Kohden, Nellcor®, or Masimo® SpO₂ technology and includes sensor starter kit
08. Nihon Kohden blood pressure hose for each monitor
09. Nihon Kohden's reusable child, adult, and large adult blood pressure cuffs
10. HL7 Essential Vital Signs spot measurements, interface and configuration
11. Power cord

Each starter kit includes connectivity to your EMR, either via the NK-HiQ™ Enterprise Gateway or a NK-HiQ HL7 Essential vital signs server for non Nihon Kohden Eco-systems
