

## **Nihon Kohden Sets New Standard for Central Nursing with the Launch of CNS-2102**

### *All-in-One Platform Set to Transform Patient Monitoring and Care*

IRVINE, Calif. – November 30, 2023 – Nihon Kohden, a global leader in precision medical devices, is proud to announce the launch of CNS-2101, an innovative new platform designed to enhance efficiency, communication, and patient care.

The key features and benefits of CNS-2101 include:

- **Intuitive Interface:** Graphics match Nihon Kohden's bedside monitors for familiar usability and workflow integration.
- **Flexible Placement:** All-in-one system takes up less space than solutions requiring bulky under-counter hardware.
- **Hassle-Free Setup:** Straightforward implementation without the complexity of unnecessary additional components.

Eiichi (Eddie) Tanaka, Corporate Director, Operating Officer, General Manager US Operations, said, "With the launch of CNS-2101, we aim to advance central nursing capabilities to better meet evolving healthcare needs."

### **About Nihon Kohden Corporation**

Founded in Japan in 1951, Nihon Kohden is a leading manufacturer, developer, and distributor of medical electronic equipment, with subsidiaries in the U.S., Europe, Asia, and Latin America. The company's products are now used in more than 120 countries, and it is the largest supplier of electroencephalography products worldwide. A pioneer in transformational healthcare technology, Nihon Kohden has envisioned, designed, and produced revolutionary devices, such as pulse oximeters, arrhythmia analysis, low-invasive blood volume monitoring, and wireless patient monitoring.
