

THE HEALTHCARE STAFFING CRISIS

Addressing critical challenges in patient care

Healthcare faces critical staffing shortages that put pressure on systems and impact quality of care. Nihon Kohden's **RemoteSense** offers a smarter approach to address these challenges.

RemoteSense™

NIHON KOHDEN

47% of healthcare workers

are projected to leave the workforce by 2025¹

610,000 nurses

plan to leave their positions by 2027²

3.2 million healthcare worker

shortage by 2026³

Introducing a Smarter Solution

RemoteSense addresses staffing challenges by extending the clinical reach of healthcare teams. It enables providers to do more with less by acting as a second set of eyes to help maintain quality of care despite staffing shortfalls.

NIHON KOHDEN

Different Thinking for Better Healthcare.

MONITORING WITHOUT WALLS, CARE WITHOUT LIMITS

This advanced software solution helps
healthcare providers manage staffing challenges by:

Extending your clinical reach

Quickly detect and respond
to patient deterioration across
multiple sites.

Streamlining your workflow

Manage alarms, admissions,
discharges, and transfers
remotely.

Making the most of your resources

Expand capabilities without
the need of additional
hardware.

Discover how RemoteSense can support your care team.
